

# Audio for Modern Broadcast & Videography Seminar

*January 25 from 6:30-8:30pm*

Andover TV  
80 Shawsheen Rd.  
Andover, MA

Ryan White, a product specialist for Rode Microphones, will compare microphone sound quality and demonstrate applications and techniques for production and post-production.

*Ryan White is working towards his fifteenth year as an Audio Engineer.*

*In 2011, Ryan graduated from Arizona's Conservatory of Recording Arts and Sciences before relocating to Los Angeles.*

*Once in Los Angeles, Ryan worked for composer Klaus Badelt, and drum software developer Steven Slate.*

*Ryan has been an Audio Engineer in all major areas of the industry, from film production to video game audio, and regularly records music in his free time. Ryan has since become a Product Specialist for Rode Microphones where he travels the United States training and educating the Music Industry and Film Industry on all Rode Microphones' product line.*

*Please RSVP by Jan. 20 to [amedonis@andovertv.org](mailto:amedonis@andovertv.org)*
