2023 ACM-NE Special Award Recipients

Chuck Sherwood Leadership Award

Bill Jennings

Bedford TV, Bedford NH

Nominators: Coleen Richardson and Andrew Fenn / Presenter: Coleen Richardson

Bill is always encouraging others to participate in PEG media (both his employees and volunteers). He wants to make sure individuals are comfortable and does his best to assist in any way possible. Bill never expects his employees to do anything he wouldn't do. He stands shoulder to shoulder with his staff and volunteers at any live (or recorded) broadcasts / events and will take on whatever duty is needed. He never loses the opportunity to bring something to the community that may never have been seen or heard of if it weren't for community access / PEG media.

This award recognizes an individual whose commitment, experience and/or accomplishments has made a significant contribution to the preservation and growth of PEG media in their community, state or beyond.

Rika Welsh Community Impact Award

Carol Courville

Athol-Orange TV, Athol MA

Nominator/Presenter: Helen Chatel

Helen said: "I am nominating Carol and AOTV13 because this is clearly a program that she has built up over time using the stations reach and resources and not only has the Foodathon impacted the the Community, it is a part of the Community". "The Foodathon, acknowledges the need in these rural towns to provide for those that have food insecurity, and the whole community comes together. The Foodathon, has over the years interviewed those that need the food as well as those that donate food or money and it is all going back into the community

This award recognizes an individual or group, who have generated a project using PEG resources, that spoke directly to a clearer understanding of the cause being championed.

Brian Wilson Mentor Award

Dena Schumacher

LMC Media, Mamaroneck, NY

Nominator: Matt Sullivan / Presenter: Michael Witsch

As a mentor, Dena has gone above and beyond to nurture the growth and development of aspiring media professionals, particularly students. She has demonstrated a remarkable ability to inspire and empower the next generation of media creators, guiding them through their creative journeys with patience and unwavering support. She spearheaded the "Future Filmmaker Project" which gives local high school students the opportunity to create four short films each "season," and allows a budget for both the filmmaker and the actor they use in their film.

This award recognizes an individual who has served as an inspiration and mentor to others in PEG media.

The ACM-NE Board of Directors Congratulates all of this year's Nor'Easter Award Recipients!

WHAT WE DO

- Captioning and Assistive Technology
- AI Consulting and Education
- Master Control Integration
- Customized Training
- Technical Support

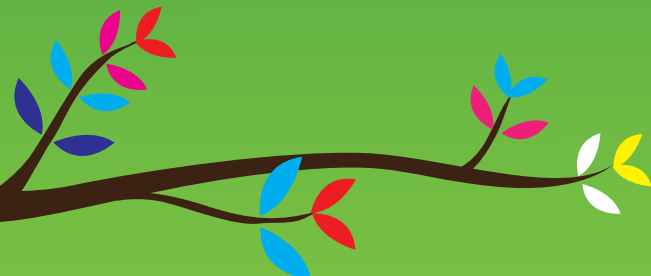

We ♥ Community Media!

Municipal Captioning helps Public, Educational, and Government broadcasters demystify artificial intelligence, closed captioning, and master control systems.

We are a team of technology geeks, equipment integrators, and training specialists who know, sell, and support closed captioning and playback systems.

Let us help you use emerging technologies to create, broadcast, and stream content in ways that are easily accessible to all community members, promoting inclusivity and citizen engagement.

Visit MunicipalCaptioning.com for more information
